Jr Primary Bath, custom remodel, updated layout.

Cristi Holcombe, founder of Cristi Holcombe Interiors, has established herself as a leader in kitchen and bath design, known for seamlessly merging elegance with practicality. Her passion extends beyond mere aesthetics—Holcombe is dedicated to transforming how her clients live and interact with their spaces. “What I love most about designing kitchens and baths is the opportunity to collaborate with clients to bring their vision to life,” she explains. “It’s not just about creating a beautiful space, but about making daily routines more seamless and enjoyable.”

Holcombe takes a personalized approach to each project, ensuring that every kitchen and bath offers an ideal balance of style and functionality. Her design philosophy revolves around creating spaces that not only captivate visually but also enhance her clients' day-to-day experiences, making everyday tasks feel effortless.

Her distinctive style is marked by three signature elements: texture, layering, and impactful lighting. Holcombe frequently integrates rich materials like

natural stone, wood, and textiles, adding warmth and depth to every room. She also emphasizes layering, thoughtfully combining various colors, materials, and furnishings to create a sense of complexity and personalization.

Lighting, however, is where her designs truly stand out. “Lighting has the power to transform a room,” Holcombe notes. Whether choosing statement fixtures or crafting subtle ambient lighting, she uses light to elevate the mood and overall atmosphere of a space.

When it comes to selecting a design partner, Holcombe advises homeowners to prioritize aesthetic alignment and expertise in kitchen and bath projects, particularly in cabinetry design. “Having a designer who is detail-oriented and organized can make all the difference,” she says. Through her thoughtful and meticulous approach, Holcombe continues to create stunning, functional spaces that enhance the way her clients live, making her a sought-after name in the world of interior design.
